- *In the framework of the "POLITEIA" program (2002) support of the OTAs of the A' and B' level of the Region of Central Macedonia (PKM) and comprehensive information of the agencies on all dimensions of the issue (specifications, tender procedures, conditions, etc.).*
- **"Training of the Unemployed in Certified Vocational Training" of the PEP 2000-2006. (2002 – 2003)**

Between November 2002 and January 2003, STRATIS took over from KEKs active in the Regions of Attica, Thessaly and Central Macedonia the preparation of proposals for educational programs that were submitted to the Special Management Services of the PEPs of the respective Regions.

- **Alternate Training Programs. (2002)**

Between August and September 2002, STRATIS undertook from 26 KEK the preparation of 36 proposals for 85 training programs which were submitted to the OAED on 30/9/02 in the framework of the project "Programs of Alternating Training of the Unemployed for the Development of Specialized Skills in Information and Communication Technologies (ICT) ". In this context, the issues of

employment and the connection of the educational programs with the local labor market were studied and presented in the proposals (study of the Business Plans of the Regions for the KtP and the PEP) and support was provided to the KEKs in finding companies for the Internship and capturing the infrastructure and needs of businesses at the local level.

➤ **Integrated Information System IKA (OPS IKA). (2000 – 2001)**

STRATIS participated in the Project Team of the Management Consultant (PLANET SA). More specifically, she was responsible for the "Human Resources Management" Work Package, while her executives were at the head of the Management Consultant's work groups for the support of the IKA, Education & Information, Recapitulation of Insurance Days, Acceleration of Pension Awarding, Form Design work groups. Also at the head of the Consultant's working groups for the preparation of relevant studies (Impacts, Process Planning, Training Needs Analysis - Planning of Training Activities, Planning of Information Activities, Presentation of the IKA Modernization Program on the WEB, Reorganization of Involved Departments, etc.)

➤ **Elaboration of the Operational Plan of the Region of Central Macedonia (PKM) for the "POLITEA" Program. (2002)**

Based on the Analysis of the Existing Situation, objectives were defined and their specialization was made into measures. Processing of 360 Project Technical Data Sheets (TSDs) which had been submitted by the final beneficiaries of the Program (Local Authorities, Regional Administrations, etc.) - Supporting the beneficiaries in the correct completion of the TSDs. Support of the Regional Committee for "POLITIA" in the management of the project, Preparation of the Operational Plan (project descriptions, schedules, budgets, prioritization, method of implementation, etc.).

➤ **Operational Plan of the Region of Epirus for Actions in the Information Society within the Operational Program "Information Society". (2001 – 2002)**

This project was implemented by LOGOTECH AE in collaboration with STRATIS from November 2001 to May 2002. The director of the project was CEO of STRATIS, head of the Contractor's Working Group (association of Consultants companies). The project included an Analysis of the Existing Situation for all the Prefectures of the Region (interviews with actors in the region, organization of information days, recording of infrastructure, project proposals, SWOT Analysis etc.), Operational Planning (Strategic Objectives, Measures, categories of interventions, implementation methodology, etc.) and Action Plans (description of specific actions-training projects, etc.).

➤ **Training of Executives of OTAs of Corfu & Epirus in Advanced Telecommunications Services (Operational Program "TELECOMMUNICATIONS" Measure 5.4 Action 2. (2000)**

This project began in January 2000 and was completed in November of the same year. The main objective of the project was the specialized information (training) of Local Government officials, of the regions of Corfu and Epirus (23 Municipalities, Communities and TEDC), regarding the possibilities of developing their activities with the use of advanced technologies and telecommunications services. In addition, more general information actions (workshops) were carried out for the executives of the organizations in the wider areas of the locations of the Project's training activities, regarding the possibilities offered by the new telecommunications services and applications (tele-working, tele-education, tele-medicine, Internet, e-commerce, etc.).

➤ **Study of Defining a Framework for the Implementation of Informational Educational Activities for the Information Society. (2000)**

This project was commissioned by E.P.Y. to STRATIS, within the framework of the Operational Program "CLOSED" in March 2000 and completed in December of the same year. The purpose of the study was to draw up a framework for the implementation of informative and educational actions on Information Society issues for public servants and members of professional groups with an increased degree of use of Information Technology and Communications.
